

A test that works as hard as you do

The new SNAP® Feline Triple® Test.
Three tests, one sample.

The SNAP Feline Triple Test is a reference lab-quality diagnostic that can detect FIV, FeLV, and feline heartworm antigen in just 10 minutes, all from a single blood draw.

And now, the SNAP Feline Triple Test is available for the same price point as the SNAP FIV/FeLV Combo Test. Which means you can test for three diseases for the price of two. Helping you make the most of every sample—and every dollar.

SNAP Combo vs. SNAP Triple	SNAP® FIV/FeLV Combo Test	SNAP® Feline Triple® Test
Superior accuracy with reference-lab quality at the point of care	x	x
Integrates with the SNAP Pro® Analyzer	x	x
Diagnostic results per sample	2	3
FIV results in 10 minutes	x	x
FeLV results in 10 minutes	x	x
Feline heartworm results in 10 minutes		x
Free heartworm confirmatory test at reference lab		x
14-hour cycling life		x
12-month refrigerated shelf life	x	x

Feline heartworm: An underrecognized threat

A recent study found that the prevalence of heartworm in cats is similar to that in dogs in high-risk populations.¹ And yet feline heartworm goes largely undiagnosed throughout the world. By adding feline heartworm diagnostics to annual wellness screenings, we can help contain this growing threat.

Expand your diagnostic capacity.

Along with reliable results, the SNAP® Feline Triple® Test provides a number of added benefits to your practice at no additional cost.

With enhanced reference lab follow-up tests, global algorithms for diagnostic support, and access to free education on disease staging and medical consultants, the new SNAP Feline Triple Test represents the newest tool in your quest to help feline patients live healthier lives.
