Create a One-of-a-Kind Feline Haven

Cat condo Project for Australia

We offer a variety of colors and styles. You can customize the appearance of the cat cabinet according to your home style or personal preferences to create a unique living space for your cat.

Personalized design: Provide unique solutions according to customer needs.

Diverse choices: Colors, materials, and functions can all be customized.

Customer participation: Let customers participate in the design process to enhance the experience.

High-quality service: From design to delivery, considerate service throughout the process.

WOODEN SERIES

01

Built-in soft light: The cat cabinet is equipped with adjustable soft light, which can provide comfortable lighting for cats without irritating their eyes. At night, the light can also help you easily observe the status of the cats to ensure their health and safety.

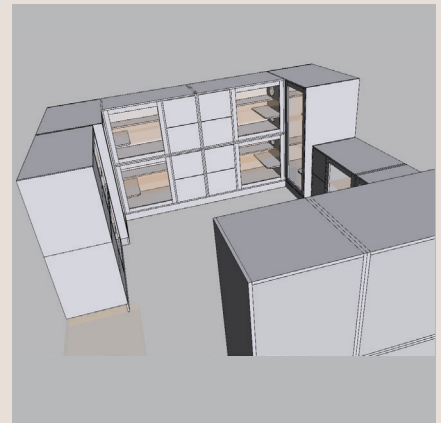

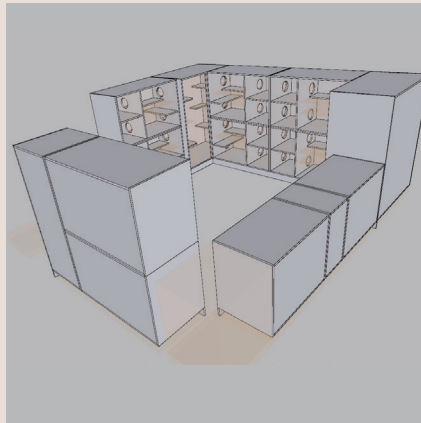

02

Breathable breathing hole design: There are multiple breathing holes designed around the cat cabinet to ensure air circulation, provide sufficient oxygen for cats, and avoid stuffiness. Whether it is used for a long time or in the hot summer, cats can enjoy fresh air.

03

Storage cabinet design: The cat cabinet is also equipped with practical storage space, which is convenient for you to store your cat's daily necessities, such as cat food, toys, cleaning tools, etc., so that everything is well organized.

WOODEN SERIES

FIBERGLASS SERIES

Fiberglass made with round corner, acrylic ventilation door. white fiberglass material has a smooth surface and soft tones, which can reflect light and create a bright, peaceful atmosphere, helping cats stay relaxed and at ease, reducing anxiety. Cabinet, Wooden made, customization available. with Bottom cabinet and, IV Pole, Power Socket, Wheel Base.

KC-510M Fiberglass Cat Condo

1 IV Pole for Infusion Pump

The option to equip with infusion pump and IV pole is available. The combination of the IV pole and infusion pump allows the cat cabinet to swiftly transform into a medical care space, enabling precise control over the infusion rate and dosage, thereby providing professional medical support for cats that are ill or require post-operative infusion. Administering treatment in a familiar environment can help reduce the stress and anxiety that cats may experience in unfamiliar settings.

FIBERGLASS SERIES

2 Integrated Power Socket (10A each)

External plug, convenient power supply: The cat cabinet is designed with an external plug, which is convenient for you to connect to the power supply to power your cat's smart devices (such as automatic feeders, cameras or heating pads)

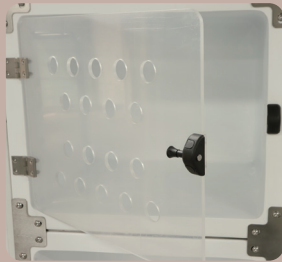

3 Hygeian Round Corner

Internal rounded corners, easy to clean: avoids the possible harm to cats caused by sharp corners, reduces the accumulation of dust and dirt, and is easier to clean

4 Acrylic/ Tempered Glass Ventilation Door

Transparent acrylic door with hole design: The acrylic door is durable and not easy to break, so you can always observe the cat's activities in the cabinet. Multiple breathing holes are designed to ensure air circulation

5 Hidden Power Cord, Fancy and Safe

Voltage is passed through the bottom, safe and hidden: The power line is hidden through the bottom of the cat cabinet, avoiding the potential safety hazards caused by exposed lines and ensuring the safety of cats and family members.

Two cage sizes are available for selection:

Option 1: 70cmLx60cmHx54cmD Option 2: 60cmLx70cmHx54cmD

CAT-FRIENDLY SERIES

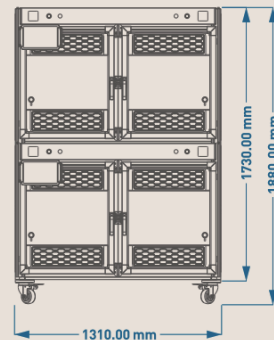

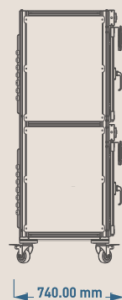

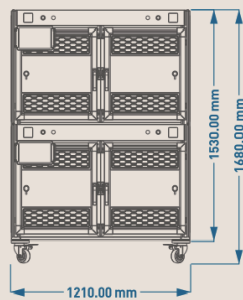

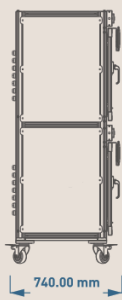

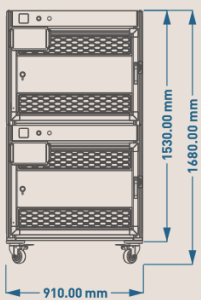

FA-2007D-CAT

FA-2007PROD-CAT

FA-2008D-CAT

FA-2007&2008 Series Cat Cage

The latest cat-friendly cage.

Comfortable order environment, conducive to urination: help ease a cat's anxiety, the inner cabin is constructed with a three layer design ABS, fiberglass, and polymer polyester—providing a more relaxing environment for the cat. Offers a jumping platform, allowing the cat to jump or hide, accommodating its natural instincts. Studies have shown that cats will urinate in this environment for 2–3 hours.

Curtains that can be closed – a private healing space for cats

Variable cabin space – single cabin for short stays, double cabin for more than 24 hours.

Separate the activity area from the cleaning area.

Rich cabin structure – Cats like to stay up high, and the cabin space is suitable for cats who are hospitalized for more than 24 hours

Music and light therapy systems soothe cats – low-energy tones of lighting help cats rest.

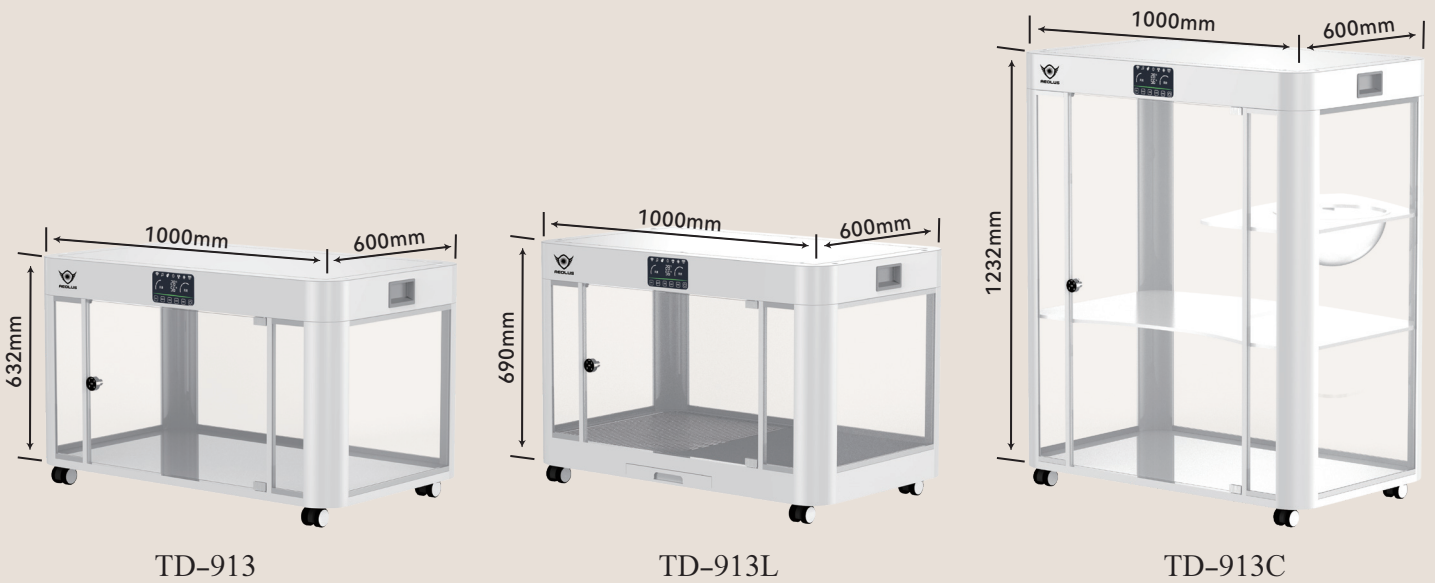

Special music to calm cats (optional)

Ensure fresh cabin air – Intelligent ventilation system with adjustable wind speed ensures fresh cabin air.

FEEDBACK

METAL SERIES

Pet smart cabin Multi-function module

Made of high-quality sheet metal aluminum alloy, it is both lightweight and durable. Transparent tempered glass makes it easy to observe the pet's status.

Fresh air system

The air volume can be adjusted from 1 to 6 levels, and the air in the cabin can be replaced every 20 seconds. The filtration system uses N95 filter elements and activated carbon components, which can effectively purify harmful gases, remove odors, reduce bacterial growth,

Smart door lock

The initial password is 1234. You can change the administrator password according to the instructions.

Fragrance & Music

There is a diffuser inside, you can drop your favorite fragrance. Soft music songs are built in, which can be played in a loop to soothe your pet's emotions.

Sterilization

UVA ultraviolet light is highly effective in sterilization, and can kill 99% of harmful bacteria, ensuring a healthy environment in the cabin.

Intelligent system

The intelligent core allows the machine to run for a long time, with a stable low failure rate, ensuring the safety of your pet, low noise, low power, silent and power-saving, real-time temperature and humidity display.

Oxygen therapy atomization

An oxygen pipeline interface is reserved inside the machine, which can be directly connected to an external oxygen machine and atomizer, turning the machine into an oxygen cabin or medical cabin instantly.
