VETERINARY FORMULA

VETERINARY FORMULA

- Powerful active ingredients
 - Dermocosmetic care
 - GMP and ISO 9001 certified
 - Affordable
-
- Store in the original container in a dry, cool place, and away from sunlight, at a temperature below 30°C.

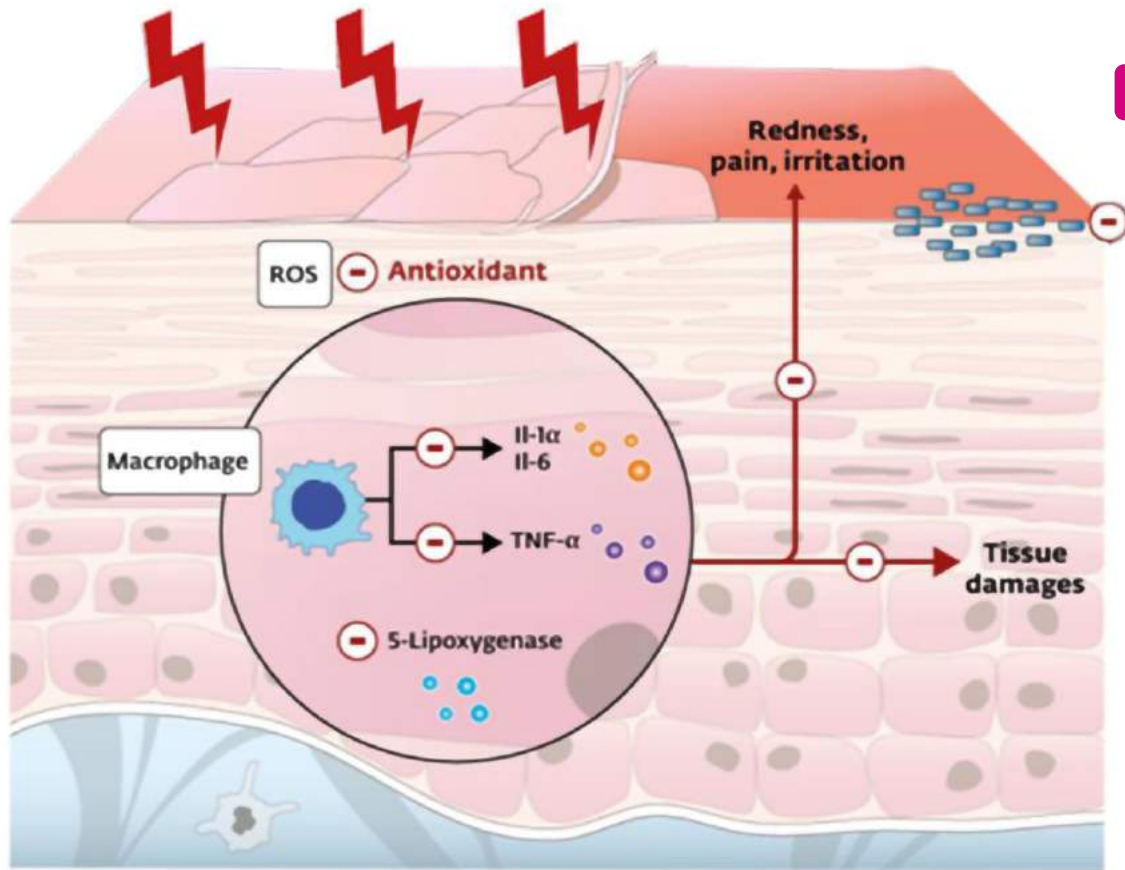

ALLERGO SHAMPOO

Ecocert shampoo base

- Sodium myristoyl glutamate is created from the amino acid, L-Glutamic Acid and myristic fatty acid.
- Hypo-allergenic and non-comedogenic properties.

ALLERGO SHAMPOO

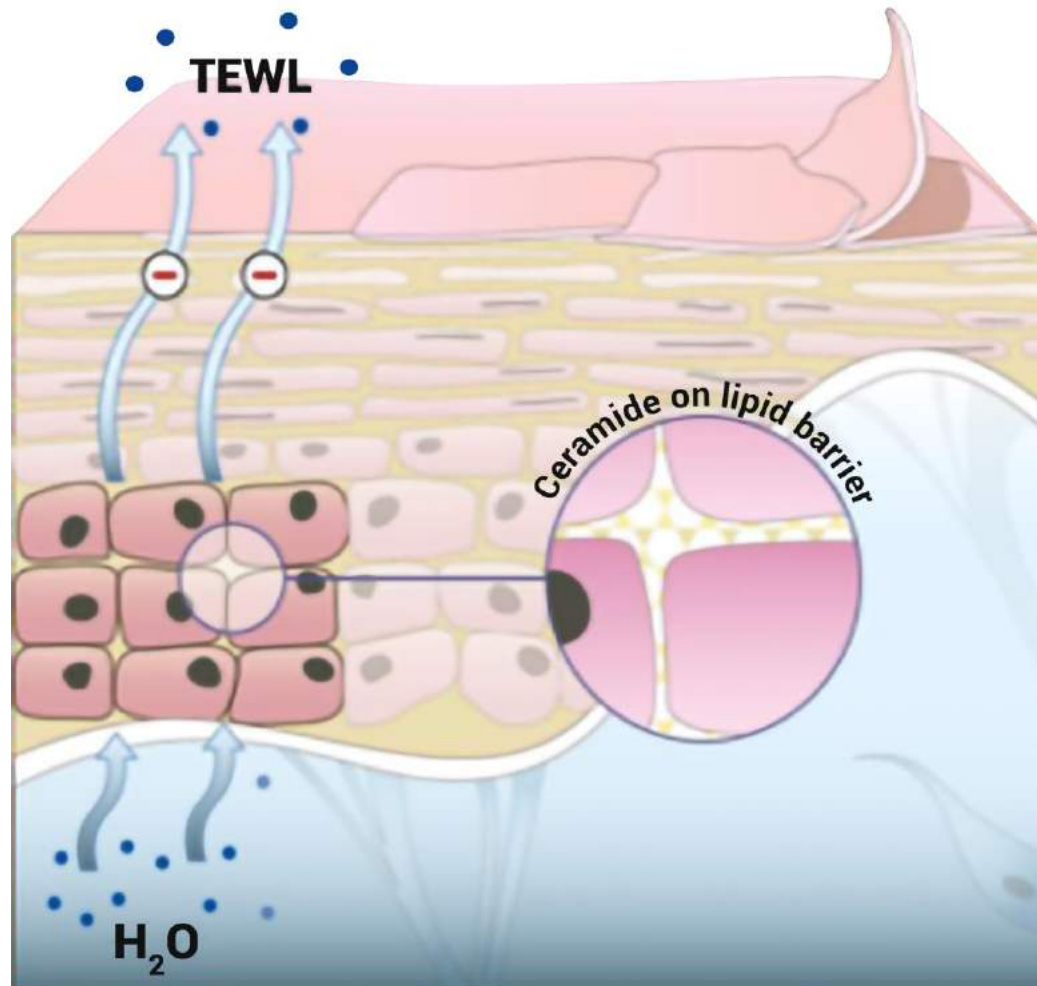

⊖ (-)- α - bisabolol actions

α - Bisabolol

- Hydration
- Soothing By inhibiting 5-lipoxygenase
- Anti-inflammatory
- Inhibition cytokines
- Protection with interfering with ROS

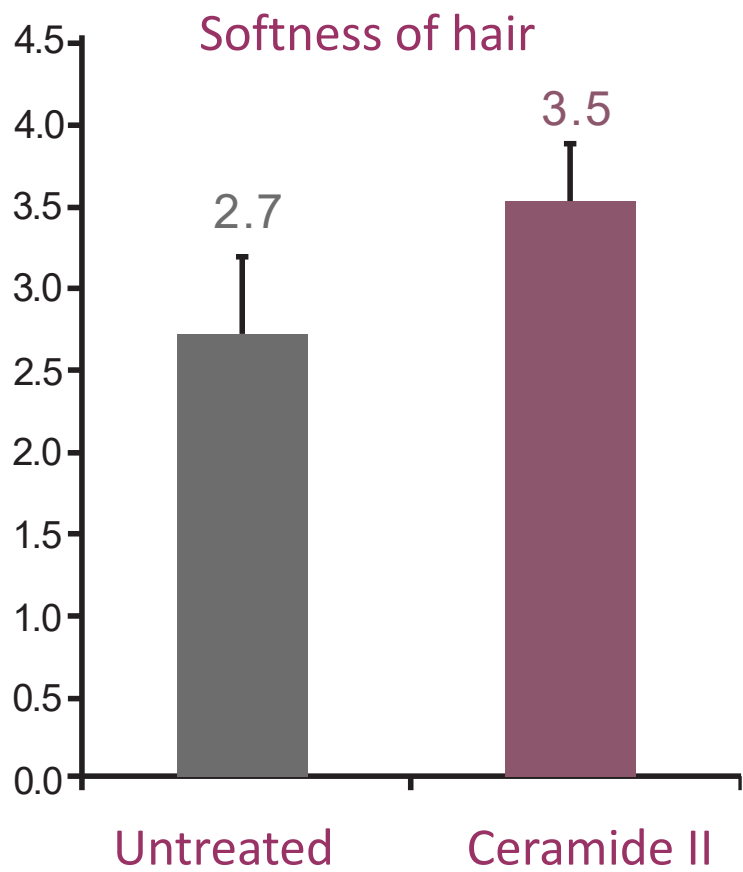

ALLERGO SHAMPOO

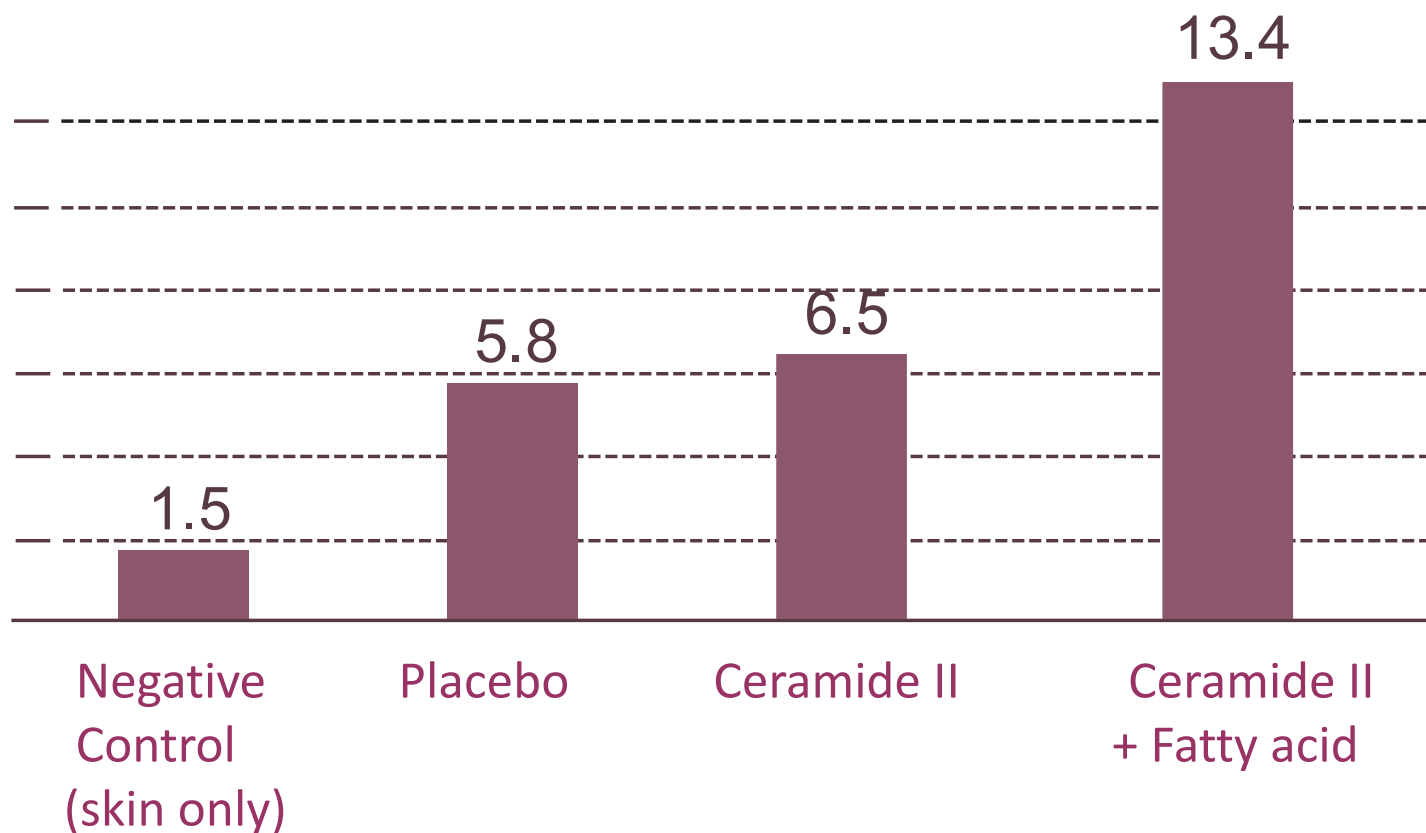

Ceramide II Physiological Ph

- Ceramide on liquid barrier
- Hydrolipid balance
- Reduce TEWL
- Prevents hair loss
- Improves smoothness and silkiness of fur

ALLERGO SHAMPOO

% Reduction in TEWL

ALLERGO SHAMPOO

Cotton Seed Oil

- α , γ -Tocopherol.
- Anti-inflammatory and antiaging effect.
- Ω - 6 linoleic acid promote proper moisture balance and the maintenance of healthy skin barrier.
- Ω - 9 oleic acid improves skins elasticity.

Sodium PCA

- Potent anti-inflammatory agent.
- Contains humectant properties.
- Prevents signs of ageing.
- Protects barrier of the skin.

Dehydroacetic acid (less than 0.6%)

- Prevents the growth of microbes in the product itself keeping it stable after opening.

SEBOGO SHAMPOO

Ecocert shampoo base

- Sodium myristoyl glutamate is created from the amino acid, L-Glutamic acid and myristic fatty acid, is hypo-allergenic and non-comedogenic.

Sopholiance® S

- Ecocert and Cosmos Certified.
- Sebum Control agent.

Antiacne

- Targets specific bacteria involved in acne reaction and body odors.
- Decreases significantly sebum production.
- Reduces of pustule and papule number in 28 days.

SEBOGO SHAMPOO

α - Bisabolol

- Soothes the skin by inhibiting 5-lipoxygenase, IL-1A, IL-5a TNF.
- Increases bioavailability of molecules.
- Inhibits melanogenesis by lowering intracellular Camp levels irritation down to -25% in two weeks.
- Interferes with ROS.
- Has anti-infective properties.

Dehydroacetic acid (less than 0.6%)

- Prevents the growth of microbes in the product itself keeping it stable after opening.

PYOGO SHAMPOO

Chlorhexidine digluconate

- It is used in cleansers, toners and acne treatment to help control bacteria and prevent infection.
- Prevent infections and promotes healing.
- It is beneficial in preventing dandruff and scalp infections.

Cocamidopropyl betaine

- Enhances the cleansing experience.
- Additionally helps to break down oils and dirt on the skin and fur, making it easier to rinse away.

PYOGO SHAMPOO

Coco-Glucoside

- Sulfate-free alternative cleansing solution that promotes fur health while minimizing irritation.

Cotton Seed Oil

- α , γ -Tocopherol.
- Anti-inflammatory and antiaging effect.
- Ω - 6 linoleic acid promote proper moisture balance and the maintenance of healthy skin barrier.
- Ω - 9 oleic acid improves skins elasticity.

PYOGO FOAM

Chlorhexidine digluconate

- It is used in cleansers, toners and acne treatment to help control bacteria and prevent infection.
- Prevent infections and promotes healing.
- It is beneficial in preventing dandruff and scalp infections.

Cocamidopropyl betaine

- Enhances the cleansing experience.
- Additionally helps to break down oils and dirt on the skin and fur, making it easier to rinse away.

PYOGO FOAM

Coco-Glucoside

- Sulfate-free alternative cleansing solution that promotes fur health while minimizing irritation.

Glycerine

- Moisturizer, reducing skin irritation, protecting against infection and boosting wound healing

Cotton Seed Oil

- α , γ -Tocopherol
- Anti-inflammatory and antiaging effect
- Ω - 6 linoleic acid promote proper moisture balance and the maintenance of healthy skin barrier
- Ω - 9 oleic acid improves skins elasticity

PHYSIODERM SHAMPOO

Ecocert shampoo base

- Sodium myristoyl glutamate is created from the amino acid, L-Glutamic Acid and myristic fatty acid, is hypo-allergenic and non-comedogenic.

Ceramide II

- Ceramide on liquid barrier.
- Hydrolipid balance.
- Reduce TEWL.
- Prevent hair loss.
- Improves smoothness and silkiness of fur.

Hyaluronic acid

- Hydrates skin.
- Helps wounds healing.
- Reduce dryness.
- Because it is not an oil, it can hydrate oily and acne-prone skin without blocking pores or causing greasiness.

PHYSIODERM SHAMPOO

Penthylen Glicol

- Skin moisturizing
- Penetration enhancer
- Antimicrobial properties

Cottonseed oil

- α , γ -Tocopherol
- Anti-inflammatory and antiaging effect
- Ω - 6 linoleic acid promote proper moisture balance and the maintenance of healthy skin barrier
- Ω - 9 oleic acid improves skins elasticity

PHYSIODERM SHAMPOO

Sodium PCA

- Prevents signs of ageing.
- Contains humectant properties.
- Protects barrier of the skin.
- Potent anti-inflammatory agent.

Panthenol

- Provides fur with volume keeping it hydrated.
- Improves elasticity in fur and skin and adds shine.
- Effective skincare ingredient which can moisturize the skin, reduce inflammation, and help wounds heal faster.

Thank you for your attention!
